This is so awesome to watch, I have never seen anything like this before. It has apparently been tried in South Africa on keel boats, but never on dinghies. It is so exciting and makes you feel part of the regatta. My son does not seem so far from home he is only a click away. The replays are a very good training tool as it is a bird eye view, which adds a new perspective to teaching. Excellent allround.

Kevin Robertson 11:01

This is an amazing site. The only issue I have is that I stay up all night watching the racing. It is the best thing to happen to sailing since NZ won the Americas cup. My wife is away at the moment so I can sit in bed and watch all the races. If she was home I would have to be a good boy go to sleep and watch the replays in the morning which is never as good as watching live. Well done.
